

# Why We Recommend Wunderhose

CHATTANOOGA KNITTING MILLS

We have satisfied ourselves at every point that Wunderhose is superior to ordinary hosiery. To an expert, the difference is most apparent. The "feel" of Wunderhose is far above the average, but a careful analysis discloses its superiority beyond dispute.

Wunderhose is soft, sheeny, resilient and smooth. It has what experts call the quality touch. The finish is quite good as that of hosiery costing twice the price. Then it is well shaped and generous in length and measurement—no skimping of material.

But it is in the twist of the threads and their unusual textile strength that the wearing becomes apparent. Wunderhose threads are as strong as piano wire, every thread triple twisted, round and of uniform strength throughout. The makers guarantee Wunderhose to give satisfactory wear for four months. They might as well make it six months. Wunderhose will wear as long as any hose will wear—longer. And in addition to maximum of wear you get maximum of quality and finish—a wonderful combination that.

Wunderhose comes in beautiful new colors that will preserve their lustre and sheen, thanks to Wunderdye, which does not harden the fabric as most dyes do and which is permanent besides. We cannot assert too strongly that Wunderhose is the best value we know of in 25 cent hosiery and it is sold on a four months guarantee that removes all element of risk as to satisfactory wear. We have it in 35 cent grades also, (three pairs to a box for \$1.00) single pairs 35 cents.

From our experience with Wunderhose we know you will never wear any other kind if once you try this celebrated brand. Try it on our recommendation.

### Farm News

Items of Interest to The Farmer, the Grower and the Stockman

A prominent Kentucky farmer has the following to say in regard to feeding wheat instead of corn. Wheat is now cheaper than corn, and it is said by those who have tried it to be much better feed, but there are some farmers now selling their wheat at the same time buying corn to feed at a greater price per bushel. Besides being a really feed, value pound for pound, there are four pounds more in a bushel of wheat than in a bushel of corn. It is said that wheat put in water at night to soak until the next morning for feed is far better for hogs than corn in any form, and now that it is cheaper than corn, farmers should certainly make the very best of the situation and give the feeding of wheat a thorough trial.

Edna May, the great show mare owned by Mrs. Richard Tasker Lowndes, arrived in Danville from Lexington last week and is doing as well as could be expected. She was founded during the Bluegrass Fair at Lexington. Mr. Mat Cohen fed her at night and after she was through eating placed a muzzle on her. The next morning he found her trough filled with corn and oats and her muzzle off. She came nearly dying from the over eating. It is thought that poison was placed in the feed. A heavy reward has been offered for the capture of the guilty party.

According to reports from every section of the county the tobacco crop this season in Madison so far, is the best in years. The recent heavy rains worked wonders in bringing out the plants, which were about dried up. In the Paddy section, there is one of the best crops in many years, and as there is a shortage in acreage this year, it is safe to say that 15 cent tobacco will prevail, if not higher. In some sections cutting will begin this week. If the cutting, housing and stripping go thru without mishap, there will be a fine quality of the weed on the local breaks this year grown in Madison.

The Burley tobacco crop of Kentucky, which last year was estimated to be 300,000,000 pounds, will not amount to more than 50,000,000 this year, it is believed. The great shortage is due to the worst drought in thirty years, hailstorms, which recently damaged or destroyed growing crops and the failure of hundreds of farmers who were members of the Burley Society to plant tobacco this year on account of the large amount of the pooled crops of other years still unsold.

Joe Bales has purchased the following bunches of fat cattle in the last two weeks. From M. C. Covington 120, averaging 1,450 lbs. at \$6.00; from Alex Gibbs 120, averaging 1,375 at \$6.00; from W. F. Parks 58, averaging 1,425 at \$6.00. Mr. Bales is one of the shrewdest buyers in the country and one of the best judges of good cattle.

J. R. McKinney shipped a bunch of 1,500 pound cattle to Pittsburgh a few days ago which were as fine a lot as has been raised in the county in some time.

Benton and Evans shipped last week 28 fat cattle, which they purchased from Thomas Baldwin at 5-3-4 cents.

### Another Cause.

The buffalo gnat has been fixed upon by Henry Garman, a Government bacteriologist and entomologist, as the cause of the mysterious disease, pellagra, which has been spreading in the mountain region of Kentucky. Mr. Garman has been conducting investigations into the cause of the disease in Whitley county, where the pellagra cases are most numerous and has been aided in his researches by Dr. Grim, a Government expert. Just how the gnat communicates the disease is not known, but both scientists believe they are on the right track and eventually will find a cure for the disease, which so far has baffled physicians who have had it under observation. The buffalo gnat exists in great numbers all throughout the South. Several new cases of pellagra have been developed in the mountain districts, but no new victims have been found in the three State asylums.

Is a great medicine of proven value for both acute and chronic kidney and bladder ailments and for annoying urinary irregularities. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives them. L. McConnelly, 117 Catherine St., Elmhurst, N. Y., says: "Five bottles did the work for me most effectively and beyond doubt Foley's Kidney Remedy is the most reliable kidney medicine ever made." Stockton & Son.
